

File Analysis Empowers FOIA Compliance

Every federal agency receives FOIA requests and must respond to these requests in a timely manner. Meeting the requirements outlined in FOIA law is extremely difficult. Active Navigation's Discovery Center can help your organization with the most difficult requirements of the FOIA process.

Using Discovery Center, one person can index an entire network to find FOIA related data. Rather than manually reviewing email and files across multiple repositories, now you can simply ask the system to find relevant data pertaining to specific FOIA requests. Discovery Center will assist the user to find sensitive data not suited for release before providing a workflow that will enable staff to confirm that the data is ready for release.

Discovery	Clean	Review	Release
Use Discovery Center's indexing to find FOIA data wherever it lives without bothering your end users	Find and remediate data that is not suitable for public release using Discovery Center's automated PII and keyword identification	Use Discovery Center's workflow and markup fields to conduct a final review before public release	Use Discovery Center to migrate the data to a public repository or removable media

Agencies using Discovery Center enable their FOIA offices to:

Apply Data Identification Strategies Tailored to Incoming FOIA Requests in Real Time:

1. Rapid detailed analysis of large amounts of data
2. Rapidly isolate FOIA-relevant information across your network for incoming requests
3. Configure Classifications in Discovery Center and index entire data repositories
4. Act on data in an audited manner

Rapidly Examine Captured Data:

1. Prevent information spillage by protecting documents that contain sensitive information
2. Mark or Classify documents not eligible to respond to FOIA Requests

Reduce FOIA Footprint:

1. Identify documents and records according to agency record retention schedule
2. Implement Rules for defensible disposition of records and deletion of ROT reduces your FOIA footprint as a solution of using Discovery Center

Create FOIA Response Workflows:

1. Implement Workflows to know the status of FOIA related tasks
2. Implement email notifications to get up to date status alerts on tasked sanctions

Accurately monitor FOIA Response Reporting using Audit Trails:

1. Visualize and refine pertinent sets of data
2. Retrieve real-time metrics across multiple repositories
